

Kirubel Fiseha

Date of birth: 28/03/1993 | **Nationality:** Ethiopian | **Gender:** Male |

Phone number: (+251) 920077575 (Mobile) | **Email address:** kirubelf@gmail.com |

Address: Bole, Africa Avenue, Mega building, 4th floor 402, Addis Ababa, Ethiopia (Work)

ABOUT ME

Aiming to achieve a challenging and successful career where I can make a significant contribution using my innovative ideas, knowledge, skills, and experience with the objective of progressive development and growth of the Organization.

WORK EXPERIENCE

15/01/2020 – CURRENT Addis Ababa, Ethiopia

POS MACHINE SOFTWARE DEVELOPMENT AND TOMS MONITORING (SECTION MANAGER) MOTI ENGINEERING

- Smart (Andriod) and classic POS machine Application development for Oromia, Ahadu, Abay, CBE, Siinqee, Hijra, and Zamzam Bank of Ethiopia
- Application development, implementation, maintenance, and support of POS, ATM, and ITM systems.
- I worked with software development and testing team members to design and develop robust solutions to meet client functionality, scalability, and performance requirements.
- Developing Incident Management System portal for Moti Engineering (a portal that all banks use to insert a call for ATM incidents)
- Adjusted design parameters to incorporate new features.
- Collaborating with fellow engineers to evaluate software interfaces.
- Administration of Global Positioning System (GPS) for the company vehicles.

04/01/2018 – 25/12/2019 Addis Ababa

NETWORK SUPPORT ENGINEER SMARTLINK ICT AND SECURITY SOLUTIONS PLC

- Diagnosed network problems involving a combination of hardware, software, power, and communications issues.
- Drafted post-mortem documentation analyzing instances of network system failures and detailing required repair and restoration efforts.
- Oversaw junior-level engineers, directing work orders while monitoring performance metrics and consumer feedback.
- Oversaw patch testing and deployment, script network software pushes and uninstalls.
- Diagnosed and executed resolutions for network and server issues.
- Set up hardware and software in optimal configurations to meet network performance requirements.
- Performed network security design and integration duties.
- Router and switch configuration.
